These surveys were conducted on March 20-22 2009 on the telephone by trained interviewers in all states of Australia and in both city and country areas. Telephone numbers and the person within the household were selected at random. The data has been weighted to reflect the population distribution. Questions are based on 1,201 interviews among adults aged 18 years and over. The maximum margin of sampling error is plus or minus 3 percentage points. Copyright at all times remains with NEWSPOLL.
