These surveys were conducted on the telephone by trained interviewers in all states of Australia and in both city and country areas. Telephone numbers and the person within the household were selected at random. The data has been weighted to reflect the population distribution. This latest survey is based on 2,615 interviews among electors, excluding 'most capable to handle economy' which is based on 1,946 interviews among electors. The maximum margin of sampling error on 2,615 is plus or minus 2 percentage points, on 1,946 it is 2.5 percentage points. Copyright at all times remains with NEWSPOLL.
